

CR Kumarasingha

Experienced UI/UX DESIGNER

Based in Colombo, Sri Lanka

I'm a dynamic UI/UX designer with a proven track record of crafting user-centered digital experiences. With a keen eye for aesthetics and a passion for problem-solving, I specialize in translating complex concepts into intuitive and visually compelling designs. From wireframes to prototypes, I bring ideas to life with a focus on usability and innovation. Let's collaborate to create impactful experiences that resonate with users and exceed expectations.

EDUCATION

University Of Rajarata

2017-2022

BICT(Hons) information and communication technology

1. Programming Fundamentals: Learned the basics of programming languages, including variables, data types, control structures, and functions.

2. Data Structures and Algorithms: Studied fundamental data structures (e.g., arrays, linked lists, trees) and algorithms for organizing and manipulating data efficiently.

3. Web Development: Introduced to web development technologies, including HTML, CSS, and JavaScript, and frameworks like Node.js and Next.js.

4. Software Engineering: Learned software development methodologies, software lifecycle, and principles of software design and testing

WORK EXPERIENCE

PayMedia (Pvt)Ltd

May 2024 - Present ( 02 mos )

UI/UX Designer

- Engage with clients to understand their business goals, target audience, and specific requirements for each project.

• Develop intuitive and visually appealing user interface designs, wireframes, and prototypes that align with client objectives and enhance user experience.

• Conduct engaging demos and presentations to showcase design concepts, explain design decisions, and solicit feedback from clients.

• Gather feedback from clients and stakeholders, analyze it, and incorporate relevant suggestions and revisions into design iterations.

• Manage multiple design projects simultaneously, establish project timelines, allocate resources efficiently, and ensure timely delivery of high-quality design solutions.

• Conduct thorough testing and evaluation of design prototypes to identify and address any usability issues or inconsistencies.

Associate UI/UX Designer ( Trainee )

- Worked with clients to shape digital experiences aligned with business goals.

• Created user flows, wireframes, and prototypes for clear design communication.

• Collaborated with developers to ensure accurate implementation.

• As a Trainee UI/UX Designer, applied design principles for innovative, user-centric solutions.

OrionUX (Pvt)Ltd

Sep 2021 - Present ( 2 yrs, 7 mos )

UIUX Designer

- Facilitated effective communication with clients to understand their design needs and requirements.

• Collaborated closely with clients throughout the design process, ensuring alignment with their vision and objectives.

• Applied innovative approaches to solve design challenges and enhance user experience.

• Implemented user feedback and usability testing results to iterate and improve design solutions.

• Demonstrated proficiency in creating intuitive and visually appealing user interfaces.

• Developed wireframes, prototypes, and mockups to effectively communicate design concepts and solutions.

• Successfully managed tasks and assignments for interns, ensuring timely delivery of high-quality work.

• Provided mentorship and guidance to interns, fostering their growth and development in UI/UX design.

MAJOR PROJECTS

Sampath Bank

VTM System

The Virtual Teller Machine (VTM) is a technological innovation that seamlessly integrates a conventional cash recycler with a live video assistant, offering a wide range of remote services for customers,

- My task : UX & UI Design
- Domain : FinTech
- Tools : Figma , FigJam , Adobe Illustrator.
- Techniques : Interviews, Persona Development, Wireframing, Prototyping, User Flow Mapping, Information, Architecture, UI Design, A/B Testing , UI Testing
- [Click here to read the case study](#)

Amana Bank

Digitalized Customer Onboarding

The proposed solution would be to implement a fully digitalized environment for face-to-face customer onboarding while maximizing customer services and allowing Amana Bank to seamlessly enable the process of account opening and capture customers’ accounts and information.

- My task : UX & UI Design
- Domain : FinTech
- Tools : Figma , FigJam , Adobe Illustrator.
- Techniques : Interviews, User Flow Mapping, Information, Architecture, Wireframing, UI Design, Prototyping, A/B Testing , UI Testing
- [Click here to view Project](#)

Commercial Bank

Biller Switch

The proposed system will provide an efficient and user-friendly biller switch system, where the admins will be capable of creating, editing, reviewing, and deleting channel and biller information.

- My task : UX & UI Design
- Domain : FinTech
- Tools : Figma , FigJam , Adobe Illustrator.
- Techniques : Interviews, Wireframing, Prototyping, User Flow Mapping, Information, Architecture, UI Design, A/B Testing , UI Testing
- [Click here to view Project](#)

NSB Bank

Digitalized Customer Onboarding

The proposed solution would be to implement a fully digitalized environment for face-to-face customer onboarding while maximizing customer services and allowing NSB to seamlessly enable the process of account opening and capture customers’ accounts and information.

- My task : UX & UI Design
- Domain : FinTech
- Tools : Figma , FigJam , Adobe Illustrator, Adobe Photoshop.
- Techniques : Interviews, Wireframing, Prototyping, User Flow Mapping, Information, Architecture, UI Design, A/B Testing , UI Testing
